WORK EXPERIENCE

Frontend Developer — BrightByte Dec 2025 – Present · Remote

Build and maintain scalable frontend architectures for client products across e-commerce, healthcare, and logistics at a top-rated Upwork agency.

Deliver pixel-perfect, responsive, and accessible interfaces through full product cycles, from design handoff to deployment.

Collaborate with project managers, UI/UX designers, and backend engineers via code reviews, sprint planning, and agile ceremonies.

Freelance Full Stack Developer — Self-Employed Mar 2025 – Present · Remote

Delivered custom landing pages, e-commerce platforms, and a health-tech AI interface for 25+ clients across diverse industries.

Built scalable solutions with React.js, Next.js, TypeScript, Tailwind CSS, Firebase, and Stripe.

Implemented multilingual support (English, Arabic, Spanish) with RTL/LTR handling and secure payment gateways, improving accessibility and conversion.

Maintained a 100% 5-star rating and 70%+ return-client rate on Khamsat and Freelancer.com.

Frontend Developer Intern — Homains

Dec 2025 – Feb 2026 · Remote

Contributed to the Homains Portal, a large-scale Angular application managing development cycles for interns and mentors.

Built a Cycle Details View and a Reminders System that improved task accountability and completion rates.

Strengthened expertise in Angular, state management, web performance optimization, and advanced DevTools debugging.

SELECTED PROJECTS

FundedForYou — Product Engineer

fundedforyou.com

Next.js · TypeScript · Node.js / Express · PostgreSQL · Stripe

Owned a full-stack prop-trading comparison platform serving 10,000+ users end-to-end: a 17-model PostgreSQL schema, a 14+ module Express API, and a Next.js frontend with admin dashboard.

Built a comparison engine across 50+ data points, Stripe payments in 140+ currencies, multi-strategy auth (JWT, OTP, magic links, Google OAuth), and bilingual EN/AR with full RTL.

RHC World Cup 2026 — Product Engineer

rhcworldcup2026.com

React 19 · TypeScript · Vite · Firebase · Netlify Functions

Built a real-time score-prediction game for 200+ employees with live leaderboards, streaks, and achievements, powered by Firebase Auth and Firestore.

Synced live football-data.org scores through server-side Netlify functions; delivered bilingual AR/EN, RTL, and dark mode at zero infrastructure cost.

TalentBridge — Frontend Developer

talent-bridge-initiative.netlify.app

Next.js 15 · TypeScript · Tailwind CSS · next-intl

Developed a bilingual web app for identifying twice-exceptional students, featuring evidence-based assessment forms, instant scoring, and PDF report generation.

Achieved a 90+ Lighthouse score through optimized code splitting and image delivery.

Additional work: Marketio (e-commerce), Fly Kitchen, Melco, Golden Metal, and Mars-eSIM — full case studies at yousefayman.com.

EDUCATION

Frontend Development Diploma (React.js) — Almdrasa

May 2024 – Mar 2025
